Cottonelle® Kleenex® LONG ROLL

More sheet per roll.
Change the roll less often.

Introducing the Kleenex® Cottonelle® Long Roll

Nobody wants to run out of toilet paper and we all know how frustrating it is to always be the one changing the toilet roll. That's why we've created a roll with more sheets - new Kleenex® Cottonelle® Long Roll.

It has more sheets per roll than regular toilet paper, so you'll need to change the roll less often. It's the same great Kleenex® Cottonelle® quality and you won't pay more either - it's the same cost per sheet as your regular Kleenex® Cottonelle® toilet paper.

And because there is less packaging for each sheet, you'll be doing good things for the environment too.

Product details

- Available in Woolworths and independent stores
- Its available in 6pk, 9pk and 12pk, White and Print (varies by retailer)
- 255 sheets per roll
- Have a reduced impact on the environment with less packaging

Kleenex® Double Length Toilet Tissue

Our Double Length range of Kleenex® Cottonelle® Toilet Tissue is available in 4 and 6 roll packs, Pure White or Marine Print.

We know that ALWAYS being the one who is left to change the toilet roll can be a frequent source of irritation...But life is too short to bicker about it or waste precious time changing toilet rolls!

Kleenex® Cottonelle® pioneered a special production process that squeezes twice as many sheets onto each toilet paper roll while still ensuring it fits most roll holders. So while Kleenex® Cottonelle® Double Length Toilet Tissue is only 10% bigger than regular rolls, each roll is twice as long which means it lasts a lot longer before running out.

PLUS with one Kleenex® Cottonelle® Double Length roll performing the job of two regular rolls, it means there's more room left in your trolley for other good stuff, the packs are easier to carry and they save on storage space at home.

* Double Length only available in Coles.

What do you wish lasted longer?

Recently, we asked people to submit photos of other things they wish lasted longer.

What people have told us about changing the toilet roll:

The wonderful period of early childhood and development. The gorgeous curiosity, the squeals of genuine delight and excitement, the freedom of expressing all the emotions, and the never ending joy and laughter at the most simple things.

What makes Kleenex® Cottonelle® Toilet Tissue so special?

Kleenex® Cottonelle® is a new generation of toilet tissue. The secret lies in its revolutionary "air weave" texture that weaves thickness and strength into cushions of softness that you can actually see and feel.

Unique Air-Weave texture

Kleenex® Cottonelle® Toilet Tissue offers indulgent comfort, with its unique air weave texture blending incredible strength and thickness into plush cushions of softness. The result is a luxurious tissue with a difference you can feel and appreciate.

Best combination of softness, thickness and absorbency.

Our Air Weave process creates cushions of softness.

The patented process is the result of 20 years of research and development and delivers a whole new level of comfort. As opposed to traditional pressing techniques, the secret of Kleenex® Cottonelle® Toilet Tissue lies in using a unique process based on warmth and air with minimal handling and sheet compression.

Kleenex® Cottonelle® Toilet Tissue is also the only premium brand of toilet tissue to be awarded PEFC certification for [promoting sustainable forestry](#). [Find out more about PEFC.](#)

Helping create a **greener, more sustainable future**

Environmental sustainability and Kleenex® Cottonelle® Toilet Tissue

At Kimberly-Clark, we take our use of resources very seriously. When you buy Kleenex® Cottonelle®, you can be confident you're doing your bit for the environment. As well as being one of the first Australian companies to have an environmental policy and an environmental management system, Kimberly-Clark is also committed to using sustainable materials in its manufacturing processes and maintaining our forests.

Our green approach: using sustainable forests

Did you know that Kimberly-Clark was the first toilet tissue manufacturer in Australia to be awarded PEFC accreditation for promoting sustainable forestry?

[Find out more about sustainable forestry](#)

Kleenex® Cottonelle® has PEFC environmental certification

PEFC (Programme for the Endorsement of Forest Certification) is an independent, not-for-profit body for certifying sustainable forestry. When you see the PEFC logo on one of our products - such as on Kleenex® Cottonelle® - you can be sure that you're minimising environmental harm - as the fibres we have used have come from forests and plantations that are sustainably managed.

Other sustainability and environmental achievements

Through ongoing research, Kimberly-Clark has made a range of landmark achievements in this area, including:

- Having certification for all three of our mills under the highest international environmental standards by independent and accredited auditors (ISO 14001:2004).
- Pioneering innovative, oxygen-based bleaching methods in Australia.
- Getting 30% of our energy from wood residues, which are greenhouse neutral and environmentally friendly.
- Installing a \$3.4 million nappy reclaim unit to recycle manufacturing waste.
- For the fourth consecutive year, Kimberly-Clark has been named No. 1 in the personal products category of the Dow Jones Sustainability World Index (DJSI World). Only the top 10 percent of the world's largest 2,500 companies qualify for this prestigious list, with companies selected according to a systematic sustainability assessment that identifies the leaders in each industry group.

Kimberly-Clark is also a foundation supporter of the Commonwealth Government's environmental initiative: the [National Packaging Covenant](#).

A sustainable future: Kimberly-Clark's Environmental Vision 2010

Kimberly-Clark recently signed the second National Packaging Covenant and continued work which has been progressing since 1990 with its three-year plan known as Vision 2010. Under this plan, Kimberly-Clark is committed to:

- Improving the way we transport products - to reduce energy consumption and carbon emissions.
- Cutting back on our manufacturing waste to landfill by another ten percent.
- Developing environmentally-preferred products and packaging.
- Establishing integrated environmental and safety management systems in our facilities.
- Looking at ways to use biodegradable plastics and plastics from renewable sources.

Under Kimberly-Clark's [Vision 2005](#) program, the company successfully improved energy efficiency by 19 percent, water efficiency by 29 percent, and landfill waste by 30 percent.

Guide Dog Partnership

Proud Supporters

Kleenex® Cottonelle® is proud to have a long standing relationship with Guide Dogs Australia and The Royal New Zealand Foundation of the Blind. Each year we raise money and awareness to help train more puppies to become Guide Dogs, ultimately enriching the lives of people with vision impairment.

This year in Australia, on top of our ongoing support, Kleenex® Cottonelle® will be sponsoring one very special female Labrador puppy as she undertakes a two year training program to hopefully become a fully-fledged Guide Dog.

The new puppy was named through a staff competition at Kimberly-Clark and the winning name was... "Casey". You can see some photos below of when Casey was presented with a new collar with her name on it.

Casey will stay with her Puppy Raising family for the next year and at 14 months will return to the Guide Dogs Centre for assessment to see if she is suited to becoming a Guide Dog. If she is selected she'll then undergo the months of intensive training to learn the complex skills required for the job. Not all puppies are suitable to be Guide Dogs and if Casey is not selected she'll become 'Pets as Therapy' dog to help people disadvantaged because of age, illness or disability.

We'll keep you posted on how Casey is getting on.

Did you know?

- It takes approximately two years to fully train each Guide Dog.
- It costs about the same to raise and train a Guide Dog as it does to buy a new car – about \$26,000.
- A Guide Dog walks approximately 9,000kms throughout its working life
- Guide Dogs usually begin work with their clients at about 20 months old, with a well-earned retirement about 8 to 10 years later
- Guide Dogs give the gift of independence to people with vision impairment.

To find out how you can sponsor a puppy, to learn more about the services provided by Guide Dogs or to make a donation:

- In Australia call 1800 804 805 or go to [Guide Dogs Australia](#)
- In New Zealand call 0800 787 743, go to [Royal New Zealand Foundation of the Blind](#) or visit [www.redpuppy.org.nz](#)

Stop & Tear!
Teach kids how much toilet tissue to use

Do you find that young kids use too much toilet paper? Sometimes they just keep unravelling and don't know when to stop!

New Kleenex® Cottonelle® Toilet Tissue for Kids featuring 'Stop and Tear' Puppy Print designs offer an easy way to teach kids how much toilet paper they should use.

The toilet tissue has printed paw prints leading to a picture of the Kleenex® Brand puppy every three to four sheets. When they get to the puppy, kids just stop and tear – a concept that's easy to teach and simple to understand.

- No more rolls and rolls of toilet paper being flushed away
- 7 new beach-themed puppy pictures to discover
- 2 different puppy designs on every roll
- Available now in 6 or 8 roll packs

How does the Toilet Tissue for Kids range differ from regular Kleenex® Cottonelle® Toilet Tissue?

The only difference is in the print design.

Is the Toilet Tissue for Kids range suitable for toilet training?

Yes: Kleenex® Cottonelle® Toilet Tissue is very soft to use and the puppy pictures can help make toilet training fun. Even children who can't count can learn to tear off at the picture of the puppy. For a complete clean, we also recommend use of Kleenex® Cottonelle® Flushable Moist Wipes for Kids.

Which pack sizes are available?

Kleenex® Cottonelle® Toilet Tissue for Kids is currently available in either 6 or 8 roll packs.

I am sensitive to fragrances. Does Kleenex® Cottonelle® Toilet Tissue for Kids have any fragrance?

Yes. The core is lightly fragranced while being manufactured, prior to having the bathroom tissue wound onto it. The paper itself is not directly scented.

Every year Guide Dogs Australia has the task of naming all the puppies destined to join its Guide Dog training program. This task keeps on getting tougher and tougher as there can be no two Guide Dogs in Australia sharing the same name.

That's why we put the call out to our Kleenex® Puppy Club members to help us come up with some new puppy names. This call was met with a huge response! Check out the list of names suggested by our members. Who knows, maybe you will find inspiration for naming your own puppy?
